

The Federal Communications Commission

Dear The Federal Communications Commission,

Hi im a 14 year old boy. i work very hard on the family farm to make my allowance to pay my cellphone bill. i Don't have enough moey to go see movies or go to a fast food restraut with my friends. so raisng the price for cellphone minutes would mean i would have to work longer and have less time to be with my friends. please don't raise the price

Sincerely,

Jonathan Baugh
